1 QUICK SETUP

This guide describes the quick installation procedure of Novalnet payment plugin (this guide comes along with the plugin), to integrate it with your shop system and to start accepting payments worldwide. For this integration, a Novalnet merchant account is needed to accept Novalnet payments, so please make sure that you have received your merchant account details from our sales team. If not, drop a mail to sales@novalnet.de

This Novalnet payment plugin package version (2.1.1) supports the following versions of Easy Digital Downloads:

 WORDPRESS	
5.0 - 5.8.2	2.8.x - 2.11.3.1

To get started:

1. Log in to the [Novalnet Admin Portal](#) with your merchant account details (user credentials).
2. Log in to your Easy Digital Downloads shop system.
3. Make sure that you have extracted the payment plugin package from the zip file you have received. If you have received only the installation guide without the payment plugin package (zip file), please send us a mail to technic@novalnet.de with your merchant ID.

1.1 Plugin Installation

To install the Novalnet Payment Plugin, please go to your shop system and follow the steps below.

Step 1: Navigate to **Plugins** → **Add New** in your shop admin panel as shown below

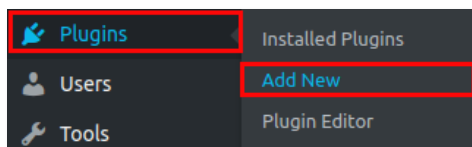

Figure 1

Step 2: Next to **Add Plugins**, click **Upload Plugin**.

Figure 2

Step 3: In the next window that appears, click **Choose File** and choose the file **edd-novalnet-gateway.zip** included in the Novalnet Easy Digital Download plugin package. Click **Install Now** to upload it into your shop system as shown below

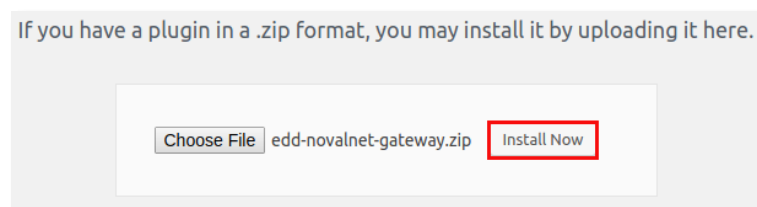

Figure 3

Step 4: After the installation, click **Activate Plugin** as shown below

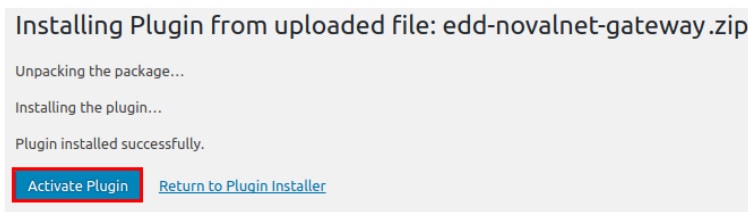

Figure 4

Step 5: After the activation, the Novalnet payment plugin will be available under **Plugins → Installed Plugins** as **Novalnet payment plugin - Easy Digital Downloads**. Click **Configuration** under the plugin listed, to navigate to the **Novalnet Global Configuration** page where you need to provide your Novalnet merchant account details as shown below

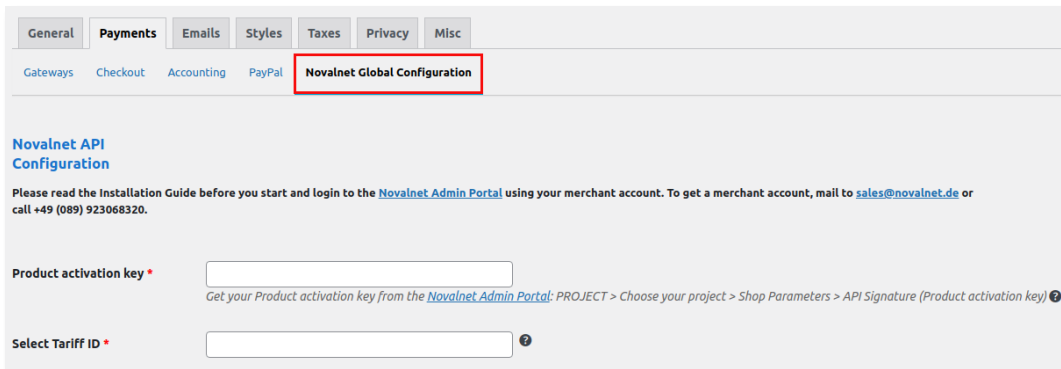

Figure 5

1.2 Global Configuration in the Easy Digital Downloads shop system

The main configuration occurs in your Easy Digital Downloads shop system as well as in the [Novalnet Admin Portal](#).

In your Easy Digital Downloads shop admin panel, navigate to **Plugins → Installed Plugins → Novalnet payment plugin - Easy Digital Downloads → Novalnet Global Configuration**. Configure the following keys -

- ❗ **Product activation key** - a unique token for merchant authentication and payment processing.
- ❗ **Tariff ID** - a unique identifier created based on the tariff type at Novalnet.

To get your **Product activation key**, go to the [Novalnet Admin Portal](#), navigate to **PROJECT** menu and choose your project as shown below

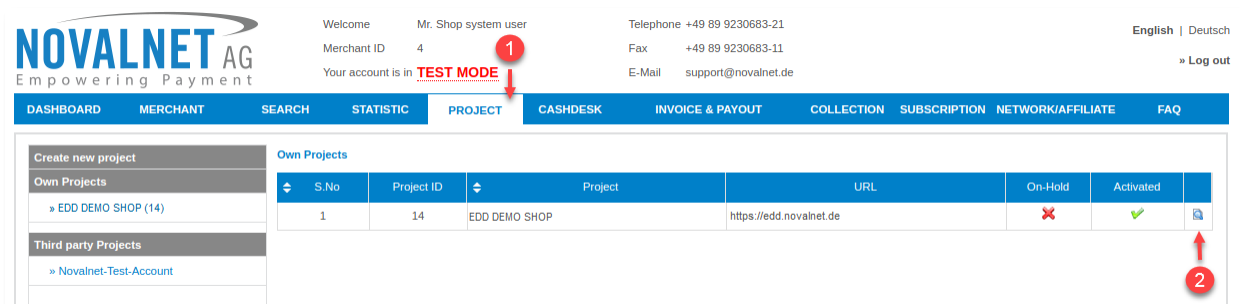

Figure 6

Click **Shop Parameters** and copy the **API Signature (Product activation key)** as shown below

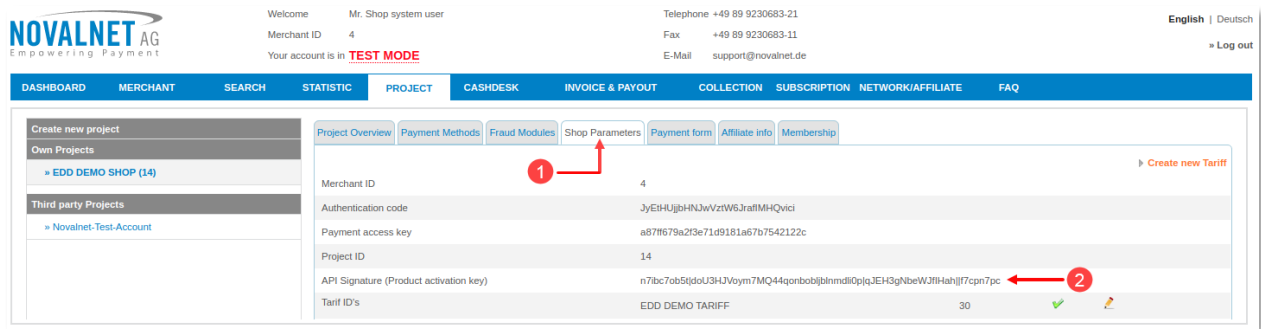

Figure 7

Paste the **Product activation key** in the respective fields in your shop system. Next, choose the Tariff ID from the drop down menu that you have created in the [Novalnet Admin Portal](#) for this Easy Digital Downloads shop system.

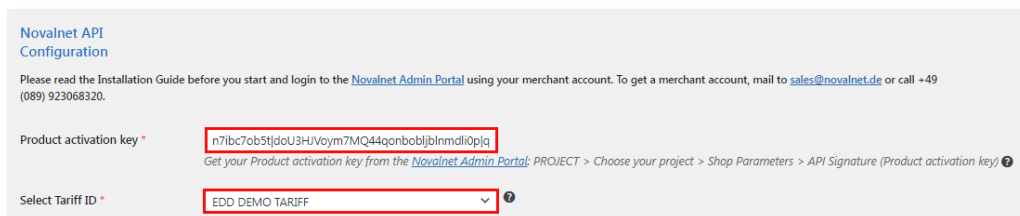

Figure 8

Then click **Save changes** to update the changes.

1.2.1 Notification/Webhook configuration in the Novalnet Admin Portal

In the **Novalnet Global Configuration** page on your shop system you will find your **Notification / Webhook URL** under **Notification / Webhook URL Setup** as shown below

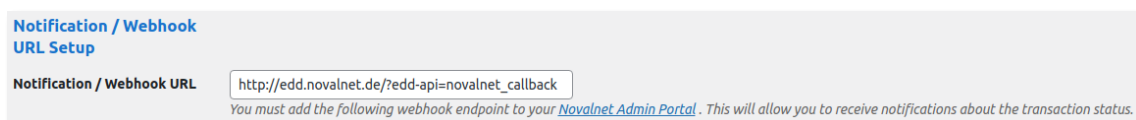

Figure 9

After successful configuration, your shop **Notification / Webhook URL** will be linked with your Novalnet Merchant account which can be seen under **Vendor script URL/ Notification & Webhook URL** field of your project as shown below

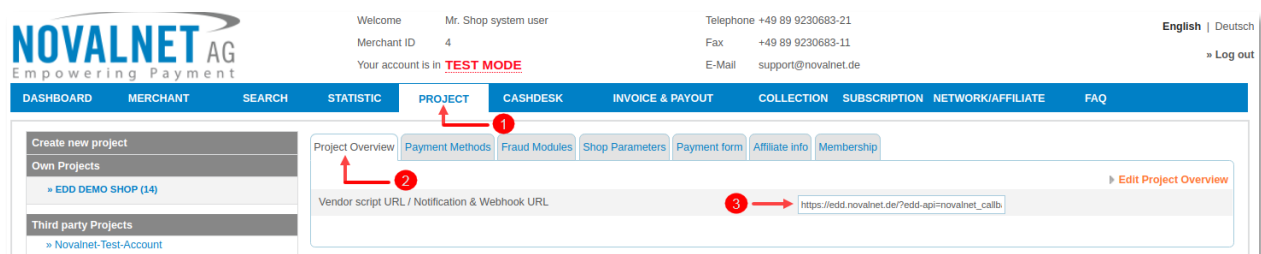

Figure 10

In your shop system, you can additionally test the Notification / Webhook URL manually and send notification emails to specific email addresses as shown below

Notification / Webhook URL Setup

Allow manual testing of the Notification / Webhook URL ?

Enable e-mail notification ?

Send e-mail to

Notification / Webhook URL

You must add the following webhook endpoint to your [Novalnet Admin Portal](#). This will allow you to receive notifications about the transaction status.

Figure 11

- ① **Allow manual testing of the Notification / Webhook URL** - Enable this to test the Novalnet Notification / Webhook URL manually. Disable this before setting your shop system live, to block unauthorized calls from external parties.
- ① **Enable e-mail notification** - Select **Yes** to enable email notifications.
- ① **Send e-mail to** - Every execution will be sent as a message to the e-mail address defined in this field.
- ① **Notification / Webhook URL** - Required to keep the merchant's database/system up to date and synchronized with Novalnet always (for example: up-to-date transaction status delivery).

1.2.2 Client key configuration in the Novalnet Admin Portal

The client key is a unique key which is linked with your Novalnet merchant account to authenticate your client based requests. You need the client key to render the secure payment form and tokenize (temporarily) the sensitive information.

🔑 Novalnet allows client-side request(s) only from the **whitelisted domains under a particular project** in the [Novalnet Admin Portal](#). The domain must be valid (secured https://) website. Please follow the below steps to whitelist the domains in the [Novalnet Admin Portal](#). You can configure multiple domain under a single client key.

Step 1: Go to the [Novalnet Admin Portal](#) with your Novalnet merchant account details.

Step 2: Navigate to the **PROJECT** menu and click view 📄 icon on the right to view your project details as shown below

NOVALNET AG Empowering Payment

Figure 12

Step 3: On the project details page click **Shop Parameters** and click **Edit** beside **Allowed Domain(s)** as shown below

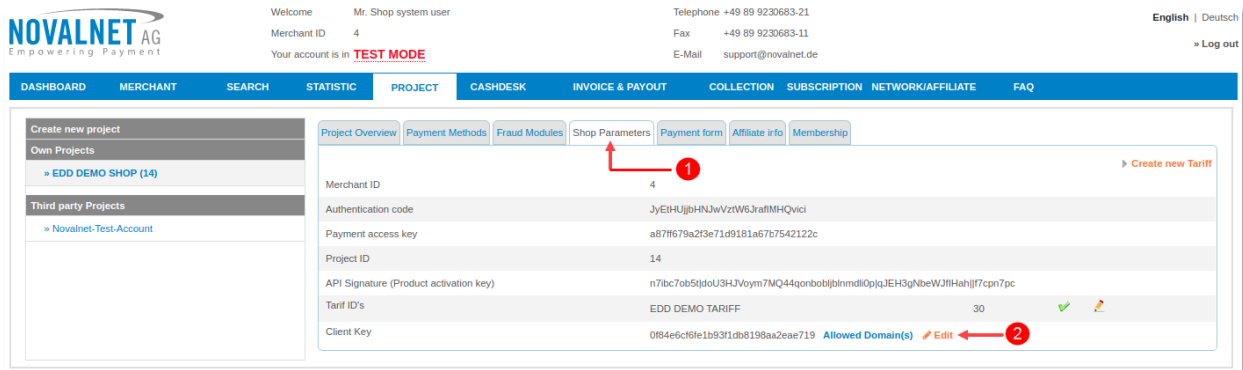

Figure 13

Step 4: Paste your website URL in the **Domain name** field and click **+ Add** as shown below

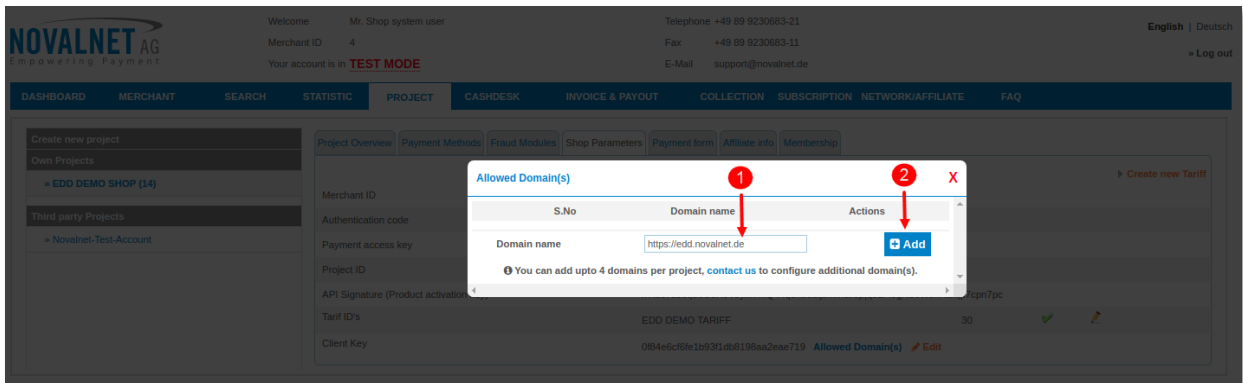

Figure 14

Step 5: After successfully adding the **Domain name**, the web URLs are listed under **Allowed Domain(s)** as shown below

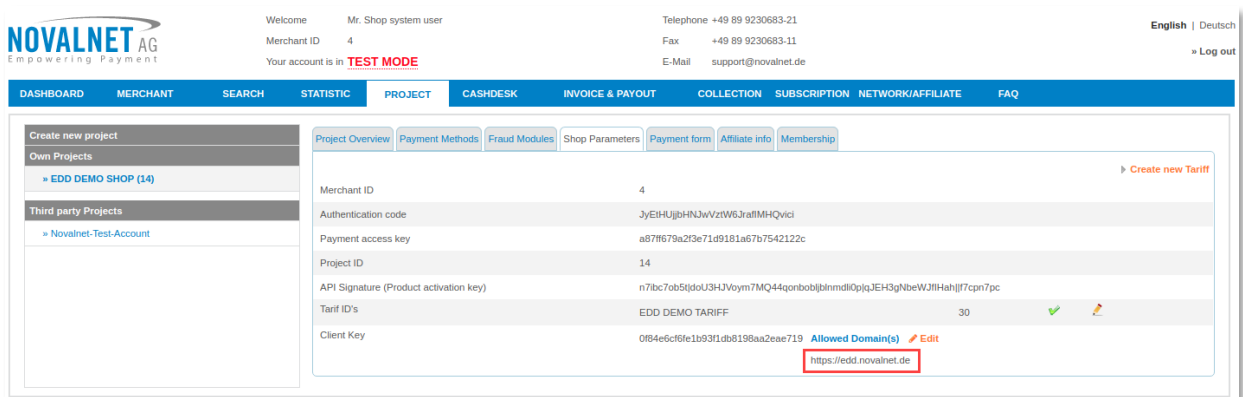

Figure 15

1.3 Payment Activation in the Novalnet Admin Portal

All the Novalnet supported payment methods can be viewed here: www.novalnet.com/payment if you have questions about the payment methods or for additional payment method requests, please contact sales@novалnet.de

To activate the [preferred payment methods](#) for your website, navigate to [Novalnet Admin Portal](#), **PROJECT** → Choose your project → **Payment Methods** → click **Edit Payment Methods** in the top right corner as shown below

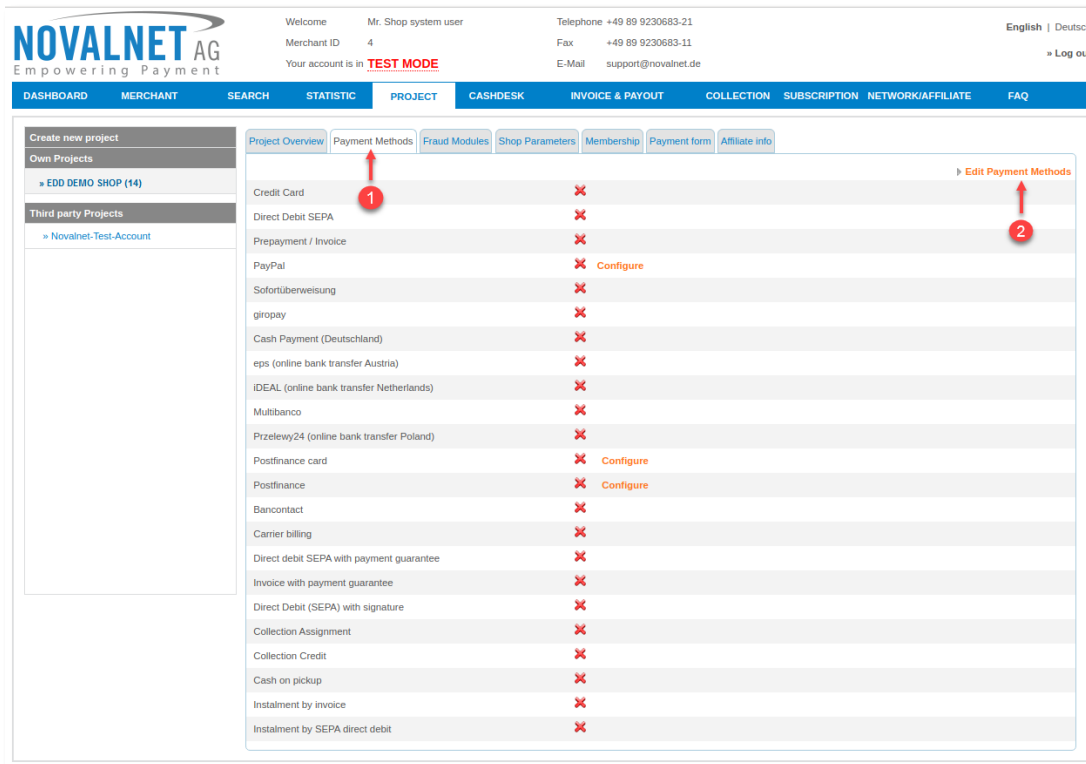

Figure 16

Now select the preferred payment methods and click **Update** to activate them as shown below

The screenshot shows the NOVALNET AG Admin Portal interface. The top navigation bar includes links for DASHBOARD, MERCHANT, SEARCH, STATISTIC, PROJECT, CASHDESK, INVOICE & PAYOUT, COLLECTION, SUBSCRIPTION, NETWORK/AFFILIATE, and FAQ. The left sidebar shows 'Own Projects' with 'EDD DEMO SHOP (14)' and 'Third party Projects' with 'Novalnet-Test-Account'. The main content area is titled 'Payment Methods' and contains a list of payment methods with checkboxes for selection. A red box highlights the 'Update' button at the bottom of the list.

Figure 18

1.4 Payment Configuration in the Easy Digital Downloads shop system

After activating the payment methods in the [Novalnet Admin portal](#), enable your preferred Novalnet payment methods in the shop system to display them on your Easy Digital Downloads checkout page. Navigate to **Downloads** → **Settings** as shown below,

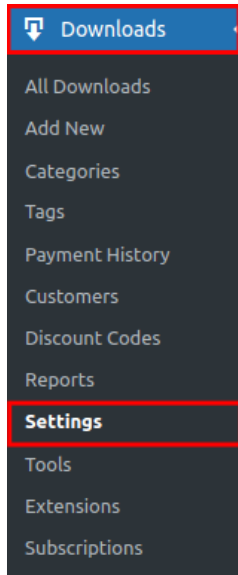

Figure 19

Under Settings, click **Payment Gateways** tab. This shows an overview of all the Novalnet payment methods. Select the required payment method to enable and configure the same (follow the same procedure to enable to configure the remaining payment methods). Click **Save Changes** to update / save the changes made as shown below

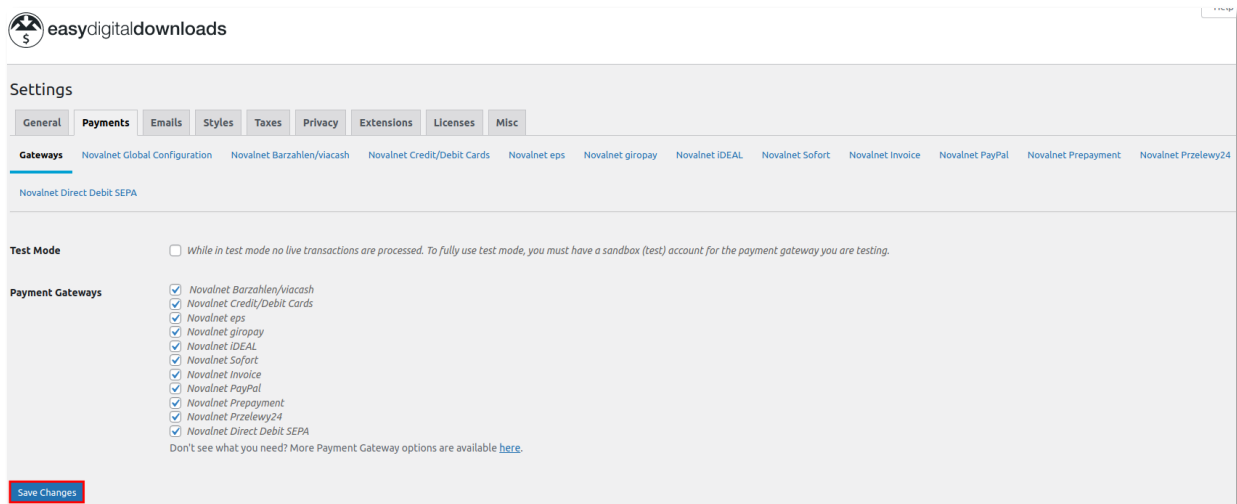

Figure 20

Before going Live, once again save the individual payment configurations to update the payment method settings in the shop admin panel.

Refer chapter [3 ADDITIONAL CONFIGURATION](#) for more payment configurations.

- ① If you have any recommendations or suggestions for improvement, kindly share your thoughts with us to develop our payment plugin further technic@novalnet.de or call us at +49 89 9230683-19.
- ① Are you happy with our service and support? Please spend a few minutes to share your success [here](#).

2 TESTING AND GOING LIVE

Execute test transactions by navigating to **Downloads** → **Settings** → **Payment Gateways** → Choose the specific payment method (e.g. **Novalnet Credit/Debit Cards**) → click **Enable test mode** at each payment configuration page. In the test mode the transaction amount will not be charged by Novalnet.

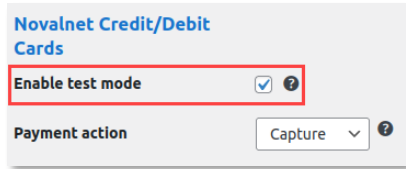

Figure 21

- ① Before going Live, once again save the individual payment configurations to update the payment method settings in the shop admin panel.
- ① Refer the below URL for the Novalnet test payment data for testing
<https://developer.novalnet.de/testing/>

Execute orders in LIVE MODE

To proceed with **LIVE** orders, don't forget to uncheck/disable the **Enable test mode** option in the individual payment configuration page.

- ① If you have any recommendation or suggestion for improvement, kindly share your thoughts with us to develop our payment plugin further technic@novалnet.de or call us at +49 89 9230683-19.
- ① Are you happy with our service and support? Please spend a few minutes to share your success [here](#)

3 ADDITIONAL CONFIGURATION

3.1 Additional configuration for all the payment methods

For additional payment configuration settings for each payment methods, navigate to **Downloads** → **Settings** → **Payment Gateways** → Choose the specific payment method (e.g. **Novalnet Credit/Debit Cards**) in the shop admin and configure the required additional payment settings.

Enable test mode

Click **Enable test mode** to test payments at your checkout page as shown below. In the test mode, the transaction amount will not be charged by Novalnet.

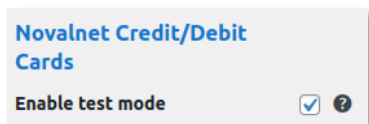

Figure 22

Notification for the buyer

Text entered in this field will be displayed in the checkout page. The message can be for example: Thank you for shopping with us.

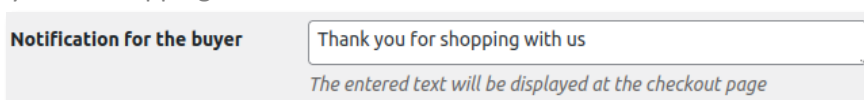

Figure 23

Refer to the image below to view how the notification appears to the buyer.

Direct Debit SEPA

The amount will be debited from your account by Novalnet

Thank you for shopping with us

The payment will be processed in the test mode therefore amount for this transaction will not be charged

IBAN

[I hereby grant the mandate for the SEPA direct debit \(electronic transmission\) and confirm that the given bank details are correct!](#)

Figure 24

Payment Action (Debit immediately / Reserve funds for later)

☛ This option is available only for the following payment methods:

Novalnet Credit/Debit Cards, Novalnet Direct Debit SEPA, Novalnet Invoice, and Novalnet PayPal.

You can choose between two options – **Capture** and **Authorize** which are both explained below.

- ① **Capture** - This is the default setting where transactions are directly confirmed, and funds are automatically transferred from buyer's account to the merchant account. This can be changed as per your business requirement.

Payment action

Capture

Figure 25

- ① **Authorize** - Payment details are verified while the funds are reserved, which will be captured later. Please note for card payments, if you fail to execute a capture within 14 days the reservation will automatically expire!
- ① **Minimum transaction amount for authorization** - Transactions above this amount will be "authorized" only and captured later. Leave the field blank to authorize all transactions.

Payment action

Authorize

Minimum transaction limit for authorization

(in minimum unit of currency. E.g. enter 100 which is equal to 1.00)

Figure 26

Payment due date (in days)

Payment due date (in days) refers to the duration (number of days) given for buyer to complete the payment. The payment process and the duration may differ for each payment method.

☛ This option is available only for the following payment methods:

Novalnet Direct Debit SEPA, Novalnet Invoice, Novalnet Prepayment and Novalnet Barzahlen/viacash.

Payment due date (in days)

Figure 27

- ① For **Novalnet Direct Debit SEPA**, enter the number of days after which the payment is debited (must be greater than 7 days).
- ① For **Novalnet Invoice**, enter the number of days given to the buyer to transfer the amount to Novalnet (must be greater than 7 days). If this field is left blank, 14 days will be set by default.
- ① For **Novalnet Prepayment**, enter the number of days given to the buyer to transfer the amount to Novalnet (must be between 7 and 28 days). If this field is left blank, 14 days will be set by default.
- ① For **Novalnet Barzahlen**, enter the number of days given to the buyer to pay at a stores near by. If this field is left blank, 14 days will be set by default for slip expiry.

On-Hold Bookings

An on-hold booking keeps the order in wait mode (max. Up to 18 days) until you confirm or reject it. To set the status for on-hold transactions, navigate to **Downloads → Settings → Payment Gateways → Novalnet Global Configuration → Order status management for on-hold transactions**. You can set the status for the confirmed and cancelled payments here.

Figure 28

Completed order status

Set the status that will be used for completed orders.

Figure 29

Callback / Webhook order status

☛ This option is available only for the following payment methods:

Novalnet Invoice, Novalnet Prepayment and Novalnet Barzahlen/viacash.

Set the status that will be applied for orders when callback script returns successful payment status.

Figure 30

Payment status for the pending payment

☛ This option is available only for the following payment methods: **Novalnet PayPal and Novalnet Przelewy24**

Set the status that will be used for outstanding orders.

Figure 31

Payment guarantee configuration

☛ This option is available only for the following payment methods:

Novalnet Direct Debit SEPA and Novalnet Invoice

When the basic requirements (shown in the image below) are met, Novalnet offers you the option to process payment as guarantee payments. For more information about Novalnet's guarantee payments,

Please visit: <https://developer.novalnet.de/onlinepayments/aboutguarantee>

Payment guarantee configuration

Payment guarantee requirements:
Allowed countries: DE, AT, CH
Allowed currency: EUR
Minimum order amount: 9,99 EUR or more
Age limit: 18 years or more
The billing address must be the same as the shipping address

Figure 32

4 MANAGING EASY DIGITAL DOWNLOADS ADMIN PANEL

4.1 Order Management

Manage your orders and view their details under **Downloads** → **Payment History** in your admin panel as shown below

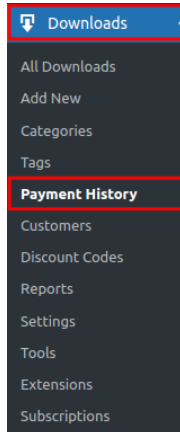

Figure 36

4.2 Transaction Overview

Click on the **View Order Details** to review the overview of the Novalnet transaction details for that order.

☐	ID	Email	Details	Amount	Date	Customer	Status
☐	1013	test@novalnet.de	View Order Details	€10.15	April 8, 2021	Novalnet test user	Complete

Figure 37

Now, you can view the order details for the respective order. Here you have an exact overview of Novalnet transaction details under the **Payment Notes** section as shown below

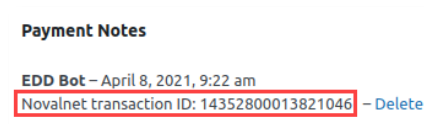

Figure 38

5 MANAGING SUBSCRIPTION

Novalnet creates subscriptions automatically based on the predefined settings in the [Novalnet Admin Portal](#) and executes automated follow-up debits. When a subscription plan is renewed by the buyer, a new order is created in your shop system, specifying the parent TID subscription. To offer subscription payments in your checkout, click **Enable subscriptions** in the [Novalnet Global Configuration](#) tab.

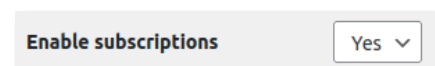

Figure 39

Use the **Subscription payments** option in the **Novalnet Global Configuration** tab to choose the payment methods you wish to offer for subscription payments.

👉 *This option is only available for the following payment methods:*

Novalnet Credit/Debit Cards, Novalnet Direct Debit SEPA, Novalnet Invoice, Novalnet Prepayment and Novalnet PayPal.

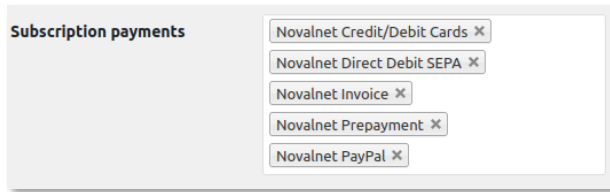

Figure 40

Subscription Tariff ID

Choose the preferred Tariff ID that you created earlier in the [Novalnet Admin Portal](#) for your project's subscriptions.

Figure 41

Please visit: <https://developer.novalnet.de/corecompetencies/dynamic> to know more about the dynamic subscription creation in the [Novalnet Admin Portal](#).

You can get an overview of all subscriptions of your buyers at **Downloads → Subscriptions**.

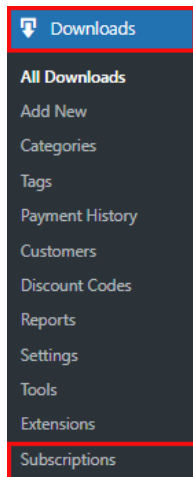

Figure 42

Recurring order

If you renew a subscription, a new order is created, mentioning the parent tid of the "old" subscription.

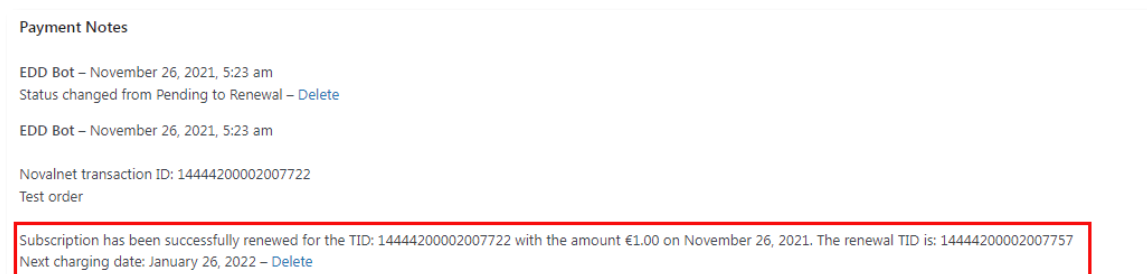

Figure 43

5.1 Subscription update payment method

With Recurring Payments customers may update their card/account information for each recurring subscription they own. Using this buyers can manage their payment information for each subscription.

5.1.1 Create a Subscription Management Page

Using the shortcode `[edd_subscriptions]` the shopadmin can create a page that allows customers to update their personal information, including their card/account information.

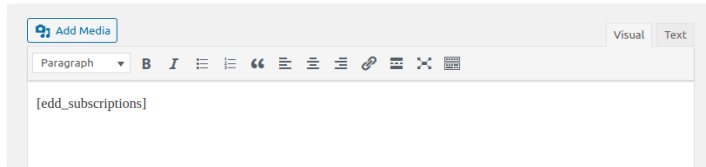

Figure 44

When a registered customer visits that page, they'll see a list of subscriptions with links to **View Invoice**, **Update Payment Method**, and **Cancel**.

Subscription					
Subscription	Status	Renewal Date	Initial Amount	Times Billed	Actions
Test product1 €20.30 / Monthly	Active	May 10, 2021	€20.30	1 / Until cancelled	View Invoice Update Payment Method Cancel

Figure 45

After clicking the **Update Payment Method** buyer can update the details as shown below

Update payment method for *Subscription*

Credit/Debit Cards

The amount will be debited from your credit/debit card

The payment will be processed in the test mode therefore amount for this transaction will not be charged

Card holder name

Card number

Expiry date **CVC/CVV/CID**

Billing Details

Billing Address
 The primary billing address for your credit card.

Billing City *
